Chef Christopher White

I am a native to Kenosha WI so "Go Packers"! At the age of 9 we moved down to southwest FL and grew up there with all the great seafood, stayed there all the way though collage. I went to Port Charlotte Culinary right out of high school and continued education at the CIA (Culinary Institute of America. I have always been in kitchens throughout my work life. My mother tells me she knew I was going to be a Chef because at a very young age I always said I wanted to be one. She even wondered how I even knew what a Chef was.

I worked in many very nice private clubs, independent restaurants, and the Greenbrier Hotel. Trained my culinary craft under some world-renowned Master Chefs, growing me into

the Chef I am today. Spent some time in the Senior Living World as a Food Service Director and a Dining Regional for Five Star Senior Living. As a Regional it has taught me a great deal with communication with staffing but more importantly the communication with our clients or members.

I am truly looking forward in my choice to make Coosaw Creek my home and to strive in making our dining here at the Club the best experience around, along with the best food around.

Looking forward to seeing you at the club!

Instruction Corner

Now is the time to work on your game, as the season kicks off. We offer private instruction at a fee of \$50 per lesson. Book a series of 3 private lessons for \$125 or a series of 5 private lessons for \$200. Group lessons, clinics and playing lessons also offered.

Speed control on the greens

Spring is the time that the grass will begin to grow and green speeds will begin to change. It is always important to stop by the putting green before you play to get a feel for the speed of the greens. For this drill we are going to work on understanding your speed control for putting. On the putting green lay down three golf balls and aim towards an open part of the green. For all three putts set up with your feet shoulder width apart and make three strokes the distance of your

feet, each ball should roll roughly the same distance. This is your indicator for the day. Let's say you walk off those three putts and they each traveled about 15 feet we can judge our distance based on the length of our putting stroke relative to our feet. A 10-foot putt should be a little bit shorter than our feet width; a 20-foot putt should be a little longer. Obviously, many factors on the course will have affect on the speed of the putt but using this drill before play is a great way to give you an idea of the speed of the greens.

Handicap Spotlight

Handicap Index vs. Course Handicap

THESE TERMS DESCRIBE TWO DIFFERENT THINGS.

The Handicap Index is a number with a decimal point (i.e. 14.2) used to indicate a measurement of a player's potential ability on a course of standard playing difficulty. It is derived from a player's score differentials which are derived from a calculation using the adjusted gross score, the Course and Slope Rating of the course played and the USGA standard Slope (113). The Course Handicap indicates how many handicap strokes a player receives from a specific set of tees being played. The Course Handicap is determined by taking the Handicap Index and applying it to a Course Handicap Table

Course News

March is here and boy are we ready for warmer weather! Course conditions continue to be good as we near the end of winter, Greens are in fantastic shape for this time of year. As we get into March, we will be starting our early spring cultural practices, fertilizer and pre-emergent applications. We have scheduled a course closure on Monday March 14th where we will be solid tine aerifying greens to allow air movement in the root zone. This is a minimally disrupted process to the putting surface but can be greatly beneficial to the overall health of the greens. We have also scheduled a bulk application on the 14th during the closure, we will be applying

Dimension which is a pre-emergent granular herbicide that aids in the control of spring crabgrass germination. On March 16th we will be applying a bulk application of an organic mix with a 5-3-0 analysis, this application will help kickstart the Bermuda out of dormancy which will allow for a quicker green-up once soil temperatures rise. For Bermuda grass growth soil temperatures need to be above 70 degrees but ideally closer to 80, most people think if the air temperature is warm we should be growing but its all about the soil temperature! Hopefully by this time next month we will start to see some color return to the Bermuda!

CCGHC NEWS

We had a wonderful turn out for our Kickoff Luncheon. Fifty members which included fifteen new members. The Club did a wonderful job with our buffet of quiche, salad and fruit. There were twelve centerpiece planters that we raffled off. All and all I think a good time was had by all.

Our next event will be on March 15 to Middleton Plantation for a one hour guided garden tour (\$24.50) and a picnic boxed lunch (\$11) out under the oaks. 9:30 to 12:30pm

Please contact Sue Weiden if you are interested in going and haven't joined the CCGHC yet. suweiden@gmail.com

SAVE THE DATE! APRIL 19

We will be learning how to make sweet grass baskets under the tent at the club. This class is limited to 20 people. So, RSVP when you receive your invitation if you are interested. Cost is \$65.

April Rivard with the help of Terri Sapp, took it upon herself to hand deliver valentines to our neighborhood children, as everyone's beloved Elsa. This warms my heart.

THE BEAUTY OF COOSAW

CCGHC will be sharing photos of "The Beauty of Coosaw" each month. Please email any photos that make you proud to live in this community. Not just flowers and plants but photos of someone being a good neighbor, a child enjoying our neighborhood, or a club activity that really meant something to you.

February is not exactly the prettiest month in Charleston but I did manage to find this beautiful tulip tree on East Fairway Woods.

Women 4 women

Our February event was a kickoff coffee with mimosas, fruit and sweets of all kinds. There were 40 ladies that came out to Holly Book's beautiful house and we all gathered on her pool deck for a short meeting and lots of laughter. We had several great suggestions for water aerobics, wine & food festival and a weights class by our new member Karen Hempfling. Another suggestion was to sponsor a blood drive in the neighborhood.

We have a fun filled calendar of events for this year. The first one is March 24th from 2 – 5 pm. House Tour in Charleston – Legare St.tour.

For tickets contact Shannon with Historical Society at 843-722-3405 and tell her you are with Coosaw Creek. Tickets are \$75 with a 3% processing fee. If you have any questions regarding this activity please contact Sherri Cleveringa @ slscliveringa@gmail.com or Holly Book. (hollybook@me.com).
